

Dur A Pell GS

Water Repellent and Graffiti Protectant

It protects against graffiti. And preserves integrity.

Whether clean and simple or dramatic and bold, your building is a work of art. Unfortunately, the graffiti that plagues it time and time again is not. According to national reports, Americans spend billions of dollars each year removing graffiti and repairing damages. And the cost continues to rise. That's why Chemprobe offers Series 626 Dur A Pell GS, a clear anti-graffiti coating that can be applied to a variety of masonry substrates. Series 626 Dur A Pell GS makes graffiti removal easy with the use of Series 680 Mark A Way citrus cleaner, and since it's non-sacrificial, it won't come off during the removal process. Which means it will withstand multiple graffiti taggings, keeping your building looking its best—and frustrating vandals everywhere.

Series 626 Dur A Pell GS can be applied solely to areas that are subject to graffiti taggings or to your entire facility for protection against not only graffiti but Mother Nature also. This protective coating acts as a water repellent, protecting concrete, masonry and stucco from wind-driven rain and moisture infiltration. Series 626 Dur A Pell GS can be applied to tilt-up, split and smooth faced block, brick and other masonry substrates including various types of stone such as limestone and granite. For more information, please contact your Chemprobe/Themec technical representative.

This two-story brick building was protected with Series 626 Dur A Pell GS. And although once tagged with graffiti, it still looks new and unstained.

Series 626 Dur A Pell GS spray-applied to exterior brick.

Building tagged with graffiti.

Graffiti removed with Series 680 Mark A Way and simple brush.

Building washed clean with water.

Graffiti removal made simple.

Graffiti applied with spray paint or markers is easily removed from surfaces treated with Series 626 Dur A Pell GS using Series 680 Mark A Way citrus cleaner. Specially developed to breakdown graffiti materials without harming Series 626 Dur A Pell GS, this powerful cleaner has a pleasant citrus odor and works quickly. Simply spray Series 680 Mark A Way on the graffiti and allow to set for 5 to 8 minutes, keeping it constantly wet. Scrub the treated area using a nylon bristled brush, making sure to reach all indentions and crevices. Then remove with clean water.
