

STRATASHIELD

ADVANCED FLOOR TECHNOLOGY

Protective coatings and flooring face a unique set of challenges in Industrial Manufacturing Facilities. Exposure to heavy traffic, constant use, quick turnaround and special cleanability needs create requirements few coatings and applicators are able to meet. Combine this with safety issues in confined areas and you have a situation few companies can help you resolve.

Tnemec Company offers a wide variety of products tailored to meet the requirements put forth by performance and safety standards. Our extensive experience with Industrial Manufacturing Facilities makes Tnemec the wise choice when it comes to maintenance floor and wall coating needs. Experienced, Tnemec Representatives will help you evaluate and offer suggestions on which coating system is right for each situation.

A FEW OF OUR SOLUTIONS...

SLIP RESISTANT FLOORING

- Low odor, solvent-free flooring for kitchens, bathrooms, and corridors. Decorative or utilitarian appearances available.

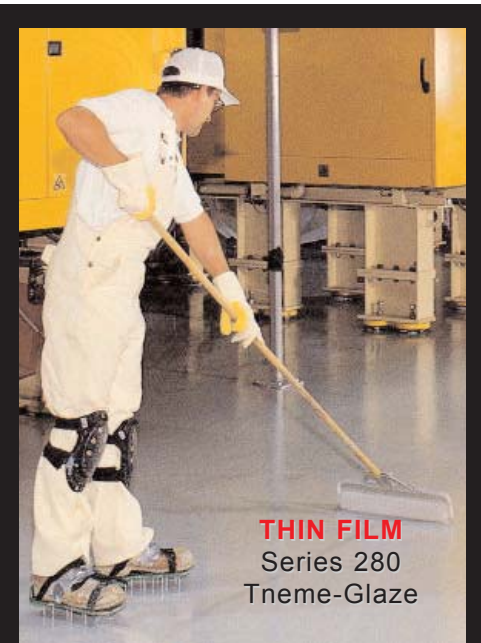

LOW ODOR, WATER-BASED EPOXIES AND POLYURETHANES

- For routine maintenance needs.

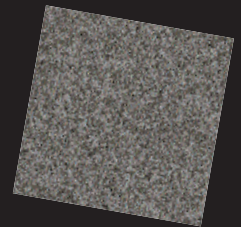

EPOXY MORTARS

- 1/4" thick decorative or industrial finish.
- 10 times the compressive strength of standard concrete. Excellent chemical and thermal shock resistance. Great for areas with forklift traffic and heavy impact.

Deco-Tread

UTILITY MORTAR
Series 237
Power-Tread

DECORATIVE FLAKE BROADCAST
Series 224
Deco-Fleck

HATE CALLBACKS? SO DO WE!

No floor is a value if you have to apply it more than once. We created StrataShield to raise the standard of quality in the flooring industry. With its greater tolerance to varying ambient conditions, StrataShield gives you the floor you hoped for, right from the start.
